New-York greets the New-York-that is to say, the fine armored cruiser which bears the name of the metropolis. There is ample reason to be proud of her. "She is the best thing affoat, the finest ship of her class in the world" -so says Captain Phillips. Her capacity in one respect was well displayed on the trip from Cape Henry to Sandy Hook, for with only twothirds of the vessel's power in use she steamed faster than on her trial trip under full power and forced draught. The New-York is emphatically a credit to her designers, to her builders and to the American Navy.

If Manhattan Day at the Fair is to be a success contributions to cover the expenses must be forthcoming. The estimated cost of the excursion, which will include city officials, the men who take part in the exercises, a band, etc., is \$20,000, and it will perhaps exceed rather than fall below that figure. Only two subscriptions had been received yesterday, but probably it will only be necessary to let the public know what is wanted in order to secure as much money as may be required. Now that the city, through its chief officials, has undertaken this celebration, it ought to be carried out on a handsome and liberal scale.

George W. Murray, of South Carolina, is the only representative of the negro race who holds a seat in Congress. On Tuesday he came into notice by asking a question that placed Mr. Kyle, of Mississippi, in an extremely awkward position. This clever introduction he followed up yesterday with a speech in opposition to the ction Repeal bill which disclosed genuine force and eloquence. Mr. Murray is now forty years of age. His early years were spent in the Emperor is said to have a suspicious nature, slavery, and he was thirteen when he learned he can scarcely fear that Prince Bismarck will

The present will be a memorable year by reason of disasters on sea and land, including an appalling number of railway wrecks with the slaughter of more than a hundred passengers.

THOU SHALT STEAL.

The Democratic State Convention, which is to meet to-day, has its work marked out for it. It has a platform to adopt with the usual perfunctory and partisan references to National and State issues, but that is of little consequence. It has also a series of nominations to tion is the nomination of a disgraced and Court of Appeals. That crowning act of political immerality has been decreed, and will judged by intelligent, law-abiding citizens on Election Day. All other issues of State polithe Empire State.

Democracy has profited by this base inis at least consistent. It has been building upon the foundations of fraud and conspiracy. Why should it hesitate to honor its most useful lawbreaker?

There is one thing against it. It is the Eighth Commandment. When Democracy nominates Maynard for the Court of Appeals it virtually advocates the repeal of that number of the Decalogue. It plants itself squarely before the law-abiding people of this State upon the platform, "Thou shalt steal."

THE YACHT RACE.

The prospect of fine weather for .- T's yacht race is not promising. With one area of low depression in the Carolinas and another in the lake region the weather prophets are dealing with uncertainties. There is a strong probability that there will be murky weather off Sandy Hook with only a moderate wind. Whether the day be favorable or unfavorable for sight-seers anxious to witness one of the closest races ever sailed, popular interest in the result of the contest will be intense affoat and ashore. The owners of the rival yachts may know what conditions of wind and sea they would prefer in order to promote their chances of success, but by the general judgment of the public each is pronounced an exceptionally good boat for all-around work under all conditions of wind and sea. Since it is to be essentially a contest between designers' models, all lovers of good sport will be disposed to welcome light breezes and heavy winds and all kinds of weather in the successive trials, so that the decisively tested. THE KAISER AND PRINCE BISMARCK. That is a curious story which comes from Berlin about the Emperor and Prince Bismarck. It is to the effect that, during the latter part of the old Kaiser's reign and the short reign of Emperor Frederick, the present Emperorthen Prince William, and Crown Prince-wrote to Prince Bismarck a number of indiscreet and compromising letters, which the ex-Chancellor still holds, and which the Emperor is anxious to get from him; and that it was in the hone of thus being enabled to get them that the Emperor made his recent overtures to the Prince and invited him to become a guest at one of the imperial castles. The story is not a pleasant one, and in its chief part is probably not true: at least there is room to hope it s not true. But in some of its details it can carcely be impeached.

The conduct of Prince William during the dosing years of his grandfather's and father's lives is already a matter of unpleasant record. He was, as heirs-apparent have often been, a leader of the opposition. He was almost entirely estranged from his mother, and only a little less so from his father, by whom he was greatly distrusted. He did not hesitate openly to antagonize his father's liberal policies, and delighted to hobrob with the Jewbaiter, Stoecker, and to forsake his parents' home for the "rival court" of Count and Countess Waldersee. At this time, moreover, Prince Bismarck was well known to regard with disfavor the political doctrines held by Emperor Frederick, and to have for the latter's English wife a scarcely concealed enmity. It is not at all improbable, then, that the Prince, who as Emperor has often written and speken with so indiscreet impulsiveness, did write to the Chancellor letters which would better not have been written, and which he would gladly now recall.

The remainder of the story, however, is scarcely to be credited. We should not like to think so ill of the German Emperor as to believe that his friendly overtures to Prince Bismarck were cunningly selfish in their efforts to enlighten and educate the voters. origin, and that he was deliberately setting a trap for the sick old man. COMPROMISE DIFFICULT.

The chance of silver repeal seems to vary from day to day. Late reports indicate that Democratic compromisers and silver men are not entirely agreed on the basis of compromise. and it is supposed to be a matter of some importance that President Cleveland does not assent to proposals thus far made. It may be questioned whether this difficulty is of as much importance as some imagine. PRESS AND PARTY,

The Republican Club, of this city, at its monthly meeting Monday night had an interesting discussion on the relations of the press and the party, which it would have been profitable for all members of the party to hear. CARE IN CHOOSING DELEGATES.

The importance of exercising extreme care in the selection of candidates for the office of delegate to the coming Constitutional Convention can scarcely be exaggerated. Especially do we desire to impress this matter upon the members of our own party; and what we say is equally applicable both to the district delegates and to those to be chosen by the State at large. MASS IN AN EPISCOPAL CHURCH.

A WEDDING CELEBRATED WITH CEREMONIES USUALLY SEEN ONLY IN A CATHOLIC SANCTUARY.

Episcopal Church in this city, took place yesterday morning in the Church of the Redeemer, Parkave and Eighty-second-st. It was a solemn nuptial mass, with all the elaborate ceremony which beongs to a solemn mass in the Roman Catholic Church, and it followed the marriage ceremony of the Protestant Episcopal Church. The bride was Miss Clara Augustine Hendrickson, the daughter of Mr. and Mrs. Gilbert Hendrickson, of No. 306 West Fifty-fifth-st., and the bridegroom was Henry Miller Bolton, a son of the late John Bolton, of

this city. The marble altar, directly in the middle of which on an elevated plane, was a large cross of silver and gold, with a medalifon of the Lamb, was ornamented with two gold vases, filled with white hydrangeas and rosses, besides the candles usually seen on the sacred altars in the Catholic churches There were two large candles on either side of the altar, and beside them were one candelabra, with five lights and another with seven. At the extreme end of the altar, on either side, was a single cluser of candles in a brass stand, seven feet high. It was fully half past 10 o'clock when the bride arrived, and the Rev. William Everett Johnson, the

rector of the church, in a lavender and white satin acolytes, each carrying large lighted candles, received the party. After the betrothal service was ead, the marriage ceremony was performed according to the ritual of the Protestant Episcopal As the Rev. Mr. Johnson, with the acolytes retired, the bride, bridegroom, maid of honor, Miss Marie Louise Post, and the best man, Louis Eick wort, stepped to the Gospel side of the altar, and knelt close to the railing; the ushers, William H. Bolton, cousin of the bridgeroom; William D. Bourne, John Post and Robert Terry, were on the opposite side of the altar.

A few minutes later the solemn unptial mass was begun. The Rev. Thomas McKee Brown, pastor of St. Mary the Virgin's Protestant Episcopal Church was the celebrant, the Rev. John H. Staunton, of the same church, was the deacon, and the Re Mr. Johnson, was the sub-deacon. They were robed in magnificent vestments.

In magnificent vestments.

The mass, so-called was a mixture of the regular morning service, used in the Protestant Episcopal Church, with a strong suggestion of the ceremonies of the Catholic Church. Throughout, incense was used unsparingly, and not only did the officers of the service receive the incense, but the bridal party and the congregation were honored in like manner.

CRITICISING THE GENERAL ASSEMBLY.

THE NEWARK PRESENTERY DISCUSSES RESOLU-TIONS CONDEMNING THE ACTION OF THE CENTRAL BODY.

The Newark Presbytery held its fall meeting resterday at the First Presbyterian Church. The Rev. Orville R. Reid was elected Moderator. Resolutions offered by the Rev. Dr. Lampman were laid on the table to be taken up at the next meeting. The resolutions were:

ing. The resolutions were:

That the Presbytery views with apprehension the attempts of the General Assembly to make any definitions of dogma by deliverance and by judicial decision, and expresses its conviction that no doctrinal statement which is not explicitly contained in the Confession of Faith and Catechism of the Church is binding on her office-bearers.

That, in the judgment of the Newark Presbytery, the action of the General Assembly in deciding a judicial case, while fundamental preliminary questions were yet pending before the Synod of New-York, is an infringement of the peregatives of the Synod, and threatens the constitutionality of each member of the Presbytery as of all others.

MRS. STANFORD'S INVENTORY TECHNICAL.

With regard to the report telegraphed from San Francisco to the effect that Mrs. Leiand Stanford had filed an inventory alleging that she was ignorant of certain property belonging to the estate of the late Senator from California which was held New-York, C. P. Huntington said yesterday: There is nothing at all in the story. I presume reference is made to the interest of Senator ford in the Pacific Improvement Company, There is no property here concerning which Mrs. ford does not receive a monthly statement. There Iyos's lead. 4.487 is no misunderstanding between Mrs. Stanford and myself, and the inventory filed was merely technical and has no significance."
